Dear Mr. Insalaco,

After previewing the film "War Eagle Arkansas" United Cerebral Palsy is pleased to support this movie for its poignant portrayal of two friends growing up in rural America. These two young men forge a lifelong friendship which interacts with their transition to adulthood on similar and dissimilar tracks. The friendship touchingly shows that limitations, both real and perceived, do not define people, abilities do.

The mission of UCP is to advance the independence, productivity and full citizenship of people with disabilities and War Eagle Arkansas clearly promotes this goal by focusing on the character of the individual, and not the characteristics that define.

UCP is appreciative of your sensitivity concerning the issues faced by people with disabilities and your film clearly exhibits this.

Sincerely,

A handwritten signature in cursive script that reads "Stephen Bennett".
